Environmental Policy

MOG-POL-ENV-001 | Revision 1 | Reviewed: 16 October 2026 | Status: Approved

OPERATING STRUCTURE

Company operating structure: Mogas Design Limited is a director-led, husband-and-wife engineering consultancy owned 60%/40% by its two directors. It has no salaried employees. Engineering services are performed by the directors and independent self-employed or limited-company contractors, normally working remotely from their own premises. The principal day-to-day working location is a converted garden office at a director's home. The central London address is a postal/correspondence address only, not a staffed operational office. Directors may undertake client-authorised gas-site visits.

Company No. 15188968 • 5th Floor, 167–169 Great Portland Street, London, W1W 5PF, UK (correspondence address)

1. Statement and scope

Mogas commits to compliance with relevant environmental law, preventing pollution and reducing the environmental impact of engineering consultancy, remote offices, travel and gas site visits.

2. Actions and objectives

Prefer digital design deliverables and meetings; avoid unnecessary printing and journeys; use energy efficiently; reduce, reuse and recycle waste; dispose of electrical and confidential materials responsibly; and consider practical environmental consequences of designs within project scope.

3. Site and design considerations

Follow host environmental rules, avoid spills or disturbance, and report suspected pollution incidents immediately to the host and Director. Flag foreseeable environmental effects and constraints associated with proposed designs to the client, while recognising project-specific environmental duties require separate assessment.

4. Responsibility and performance

The Director reviews relevant environmental aspects, significant risks, improvement opportunities and contractor awareness. Consider proportionate measures such as travel reduction, office energy use and waste practices.

5. Certification position

This policy is not a claim that Mogas holds accredited ISO 14001 certification.

6. Review

Review annually and following significant business changes, incidents or updated requirements.

Document control and approval
